SPECIFICATIONS AND PRICES SUBJECT TO CHANGE / SHIPPING ADDITIONAL

NOTE: There are (2) different styles of "replacement" director chair covers.

One is the **"Flat Stick"** style where there's a flat stick dowel that connects the cover to the chair frame. The other is the **"Round Dowel"** style that connects the cover to the chair frame. The "Round Dowel" style is standard on Telescope brand director's chairs. When measuring your covers for replacement, please lay them flat on a flat surface and measure them -- not when connected to the chair. Please also be aware that after years of use, yours may have expanded to be a little larger than those that are replacing them. The most important factor when ordering is the question of whether they are "Round Dowel" or "Flat Stick" director's chair covers.

The dimensions of the "Round Dowel" style are:
 Seat Width (laid flat): 16" x 19"
 Seat Back (laid flat): 7" x 21 3/4"

The dimensions of the "Flat Stick" style are:
 Seat Width (laid flat): 15" x 23"
 Seat Back (laid flat): 6 3/4" x 22 1/2"
